A man and his family touring from Oklahoma City to the East met a friend of the Hotel Belleclaire in Chicago, who told him that when he reached New stop at this hotel because there were numerous garages nearby, and that he and his family would receive as much attention from Belleclaire workers as if

they were in their own home. This Oklahoma City man acted on the suggestion of our friend in Chicago, and came here and visited us for several days-taking frequent drives around New York and out on Long Island and throughout New Jersey, but always return-ing to the hotel every evening because as he said: "I never telt so much at home in any hotel in my life and my family tells me they were never served in any hotel with such fine home cooking."

He will go back to Oklahoma City as a great rooter for the Belleclaire and thus it is that we multiply friends in all sec-tions of the country.

Don't you think it pays to conduct a hotel in this way, so

that our guests are always content and comfortable and well fed?

EXTRAORDINARY SALE

of Magnificent Bohn Syphon Refrigerators Specially Made for the

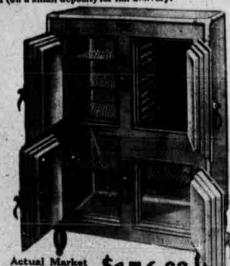

Last August we were awarded by the U. S. Government a large contract for Refrigerators for battle-ships, armored cruisers, submarine chasers, etc. The contract called for the very highest grade of construction ever put into Refrigerators by any manufacturer, and every process of manufacture was rigidly inspected. These Refrigerators were shipped to the various Navy Yards.

When the Armistice was signed, most of the Refrigerators shipped to the Philadelphia Navy Yard could not be used because the vessels for which these Refrigerators were intended would not be built.

These Refrigerators were stored in the Philadelphia Navy Yard Buildings Nos. 400 and 401, and have been shipped back to us. They are now in the original crates, and are ready for immediate delivery or shipment, or can be held (on a small deposit) for fall delivery.

These Refrigerators have exteriors of beautiful robinight-blue genuine fused-steel percelain. The trim and fitare handsome solid beass kel-plated, with heavy solid brass nickel-plated sanitary egs with castors, with 6 inch clearance from the floor, for easy cleaning of floor. They have 4 doors, 5 shelves and 2 bottom compartments. The size is 37 1/4 inches wide, 20 1/4 nches deep and 60 inches high. Ice capacity about 100

The Bohn Syphon Refrig-erator is the standard of the world. All railroads use the Bohn Syphon System for their refrigerator cars, and every dining car in the land (the severest test of a Refrigerator) has a Bohn Syphon.

During this Special Sale we Have Marked All Bohn Models at Radical Reductions.
